

Lab Village Innovation Melting Pot between research and business

Friday 19 April 2024
at 10:00

Urban Center Trieste
Corso Camillo Benso Conte di Cavour, 2/2
Trieste

Presentation day dedicated to Lab Village iNEST Spoke 8 at the Urban Center, Trieste. The Lab Village project aims to promote innovation and participation through Private-Public Partnership activities in shared spaces which work across academic research and business. The project's actions have a two key objectives: to develop methodologies to foster collaboration between universities, companies and other bodies working in research and development; and to create a space dedicated to events, networking services and scouting.

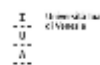

The idea behind the project is to create a melting pot for innovation for the development of relations in the region and within Triveneto, with a focus on internationalisation.
