**CALL FOR APPLICATIONS**

**ADMISSION TO DOCTORAL PROGRAMMES – 40th cycle (AY 2024/25)**

issued with Rector’s decree no. 581/2024 prot. no. 71577 of 13 May 2024

and published on the University Official Notice Board (no. 1020/2024 prot. no. 71588)

**OPENING DATE for applications: 13 May 2024 – from 01:00 pm (CEST)**

**CLOSING DATE for applications: 13 June 2024 – before 01:00 pm (CEST)**

This Call for Applications is available online on: [https://www.units.it/dottorati/call](https://www.units.it/dottorati/call)

---

**Art. 1 – DOCTORAL PROGRAMMES**

The *Università degli Studi di Trieste*, hereinafter University of Trieste, announces a selection for admission to the following Doctoral Programmes on offer in the academic year 2024/2025 (40th cycle):

- **Environmental Life Sciences** ([Selection - Attachment 1](#))
- **Applied Data Science and Artificial Intelligence** ([Selection - Attachment 2](#))
- **Molecular Biomedicine** ([Selection - Attachment 3](#))
- **Chemistry** ([Selection - Attachment 4](#))
- **Circular Economy** ([Selection - Attachment 5](#))
- **Physics** ([Selection - Attachment 6](#))
- **Civil - Environmental Engineering and Architecture** ([Selection - Attachment 7](#))
- **Industrial and Information Engineering** ([Selection - Attachment 8](#))
- **Personalized Medicine and Innovative Therapies** ([Selection - Attachment 9](#))
- **Nanotechnology** ([Selection - Attachment 10](#))
- **Neural and Cognitive Sciences** ([Selection - Attachment 11](#))
- **Earth Science, Fluid-dynamics and Mathematics. Interactions and methods** ([Selection - Attachment 12](#))
- **History, Philosophy and Political-Social Studies** ([Selection - Attachment 13](#)).

The above-mentioned attachments, named “Selection”, form an integral part of this Call for Applications and are posted on the Web pages dedicated to each Programme. These attachments include, for each Doctoral Programme, the number and type of places offered, the documentation to be uploaded, the terms and conditions for applying and the scheduled examinations.

Additional scholarships which may become available after the publication of this Call, or any changes to the calendar or testing modalities, will be announced on the mentioned attachments.

An overview of each Programme is available on the Webpage at this link: [https://portale.units.it/en/research/phd/programmes](https://portale.units.it/en/research/phd/programmes)
Pursuant to art. 3 of Ministerial Decree D.M. 226/2021, the above Doctoral Programmes can be run only after verification that they meet the requirements for accreditation. Doctoral Programmes officially start on 1st November 2024.

The agreements with companies and institutions that are required for the qualification of the doctoral Programmes as "Industrial PhD" (namely, Applied Data Science and Artificial Intelligence, Circular Economy, Personalized Medicine and Innovative Therapies, Industrial and Information Engineering) - pursuant to Art. 10 of Ministerial Decree 226/2021 - are in the process of being renewed. This qualification is subject to the approval by the Italian Ministry of University and Research (MUR) that is granted at a later stage.

For the "Molecular Biomedicine" programme, the procedure for the recognition of "Industrial PhD" qualification has been initiated.

The scholarships included in the “Industrial PhD” Programmes are identified with the code FSE+, and will be funded with support from the European Social Fund Plus 2021/2027 (ESF+), after approval of the application for funding by the Region Friuli Venezia Giulia (FVG).

Certain scholarships (for example, those funded with support from the National Recovery and Resilience Plan and the European Social Fund Plus 2021/2027) may have specific requirements to be met.

Selection procedures are managed to ensure maximum transparency, impartiality and publicity to potential recipients.

The University of Trieste adopts a gender equality policy, according to the Plan approved by the University Senate and Board of Directors in their meetings of 21 and 28 January 2022, respectively.

The PNRR and ESF+ “horizontal principles” are hereby ensured, ie sustainable development including the DNSH principle (“Do no significant harm”), equal opportunities, non-discrimination and accessibility for persons with disabilities.

For any issues not expressly regulated by this Call, the general provisions in force and the Regulations on Research Doctorates of the University of Trieste (Rectoral decree no. 261/2022) shall apply (http://www.units.it/dottorati/regolamento).

Art. 2 – ADMISSION REQUIREMENTS

Applicants must hold one of the following qualifications:

1. an Italian second-level qualification known as “Laurea Magistrale” or “Laurea Specialistica”, or else an Italian degree awarded under the former university system (ie prior to D.M. no. 509 of 3 November 1999, as amended by D.M. no. 270 of 22 October 2004);

2. a comparable foreign academic qualification allowing access to Doctoral studies in the issuing country (see art. 3).

The above-mentioned qualifications must be gained by 31 October 2024.

Some Doctoral Programmes may require specific university qualifications. Please see the relevant “Selection” attachment for information.

Candidates holding a Doctoral degree cannot be admitted to the same Doctoral Programme.

Art. 3 - INTERNATIONAL DEGREES

Any second-cycle Higher Education qualifications obtained from a foreign institution and considered as equivalent to the required Italian degrees give access to the Doctorate.
International degrees are assessed by the Board of Examiners for the sole purpose of admission to the Doctoral Programme, based on the level of the qualification, the length and/or the field of study of the degree programme, in compliance with the relevant laws in force in Italy and in the awarding country, as well as with international treaties or agreements on the recognition of foreign qualifications.

The above-mentioned conditions apply to any candidates - irrespective of their nationality - holding a foreign degree issued by institutions both from a EU and a non-EU country.

The application process is online only (see art. 4.1). Applicants need to upload a certificate of the required academic qualifications along with the relevant Transcripts of Records, as detailed in the “Selection” attachment. Candidates are strongly encouraged to provide any other document that might be useful for consideration of their application (e.g. Diploma Supplement, “dichiarazione di valore” issued by the Italian Embassy or Consulate in the awarding country, syllabi, etc.).

If the certificates are delivered in a language other than English, a translation in English or Italian must be uploaded. At this stage, the translation may be provided by the candidates themselves, who take full responsibility for the accuracy and truthfulness of the version.

Upon enrolment, successful candidates shall submit the full supporting documentation, including the official translations, duly legalized by the relevant authority in the issuing country (see art. 6.2).

### Art. 4 – APPLICATIONS

#### 4.1 – Application procedure

The application deadline is 13 June 2024, 01:00 PM (CEST).

Applications must be submitted online via the University system [https://esse3.units.it/Home.do](https://esse3.units.it/Home.do).

Applications sent by any other means will not be processed.

The application process consists of three steps:

1) **Registration:** applicants who have never registered on the University site need to register online before applying in order to obtain their username and password (credentials) which will allow them to move on to the second stage. To register, applicants are strongly advised to use **SPID** *(Sistema Pubblico di Identità Digitale)*, providing that they are eligible to obtain one;

2) **Application:** after registration, applicants need to complete the online application including the upload of the documents listed in the relevant “Selection” attachment. The reference letters – where required - must be uploaded on the University platform by the reference person indicated in the application. Applicants must enter the email addresses and personal details of the reference persons, who will receive an email notification with instructions on how to proceed with the upload of the letter, as soon as the application process is completed. The applicant and the reference person will eventually receive a notification that the document has been uploaded. The letters, as uploaded by the reference person, will be available to the Board of examiners.

Applicants can send a reminder on the platform to the reference persons or change their names by the application deadline (June 13, 2024, 01:00 PM CEST).

The deadline for the reference person to upload the letter is June 17, 2024, 01:00 PM (CEST).

Reference letters sent by any other means will not be considered.

3) **Payment of the registration fee:** for each application an exam registration fee (€ 30.00) must be paid by 13 June 2024 (closing date for applying). Applicants failing to pay within the first day of assessment of
qualifications shall be excluded from the competition (see the relevant date on the “Selection” attachment of the chosen Doctoral Programme). Exclusion will be announced in the “Assessment” or “Shortlist” file. The fee is non-refundable, except where more than one payment has been mistakenly made for the same application.

Candidates residing abroad who are unable to pay online due to banking restrictions in their country of residence may apply for conditional admission to the selection (email to dottorati@amm.units.it) within the final deadline for payment, providing adequate documented evidence (mere claims are not sufficient) of their inability to pay. If the request is accepted, the candidate will be allowed to pay the fee to pay within five (5) days of the publication of the interview results. Should the deadline fall on a Sunday or holiday, it will be postponed on the following day. Applicants failing to pay shall be excluded from the competition ranking.

Late applications cannot be submitted: after the closing date and time the online system will no longer allow access to the application. The date and time of application are certified by the online system, and a receipt thereof can be downloaded at the end of the process. Applicants will also receive an email message confirming submission. It is solely the candidate’s responsibility to ensure that the application is submitted correctly, including the uploaded attachments. The Doctoral Office will not respond to individual inquiries on the status of applications.

Candidates are strongly encouraged to complete their application and pay the admission fee well in advance of the deadline, to avoid any possible crashing of the IT system and subsequent failure of the application process - due to the high number of last-minute applicants.

Requests for password recovery sent after 7 June 2024 cannot be processed.

By submitting the online application, applicants accept the provisions of this Call for Applications and the applicable University Regulations on Research Doctorates.

4.2 – Applicants with disabilities and learning impairments (SLD)

Candidates with a recognised disability (pursuant to Law no. 104/1992 as amended by Law no. 17/99), or with a disability of at least 66% may request special aids and up to 50% extra time for completing a written test, where applicable.

Requests must be submitted in writing to the Disability Service along with a copy of the certificate from the Public Medical Board (the Italian Commissione Sanitaria), as provided by Law 104/1992, or official acknowledgement of disability. Before visiting the Service, candidates are advised to book an appointment by email or telephone at least 10 working days prior to the date of the examination:

Servizio Disabilità: Sede: tel. 040 558 2570/7663 - email disabili.dsa@units.it - webpage: https://web.units.it/page/it/dsdi/dis/home

Candidates with specific learning disorders (SLD) may request up to 30% extra time, and in the event of serious issues, special aids aimed at ensuring equal opportunities, provided they submit a medical certificate of diagnosis, in accordance with Law no.170/2010 (art. 3) and the State-Regions Agreement of 24/7/2012. Requests must be submitted to the Disability and Learning Impairment Service (Servizio Disabilità/DSA). Candidates are advised to book an appointment by email or telephone at least 10 working days prior to the date of the examination:

Servizio DSA: Sede: tel. 040 558 2570/7663 - email disabili.dsa@units.it - webpage: https://web.units.it/page/it/dsdi/home
Art. 5 – ADMISSION EXAMINATION

5.1 - Terms and conditions

Terms and conditions of admission, as well as the schedule of examinations, are advertised on the “Selection” information sheets of each Doctoral Programme, which shall constitute notification to all applicants. The Doctoral Office is under no obligation to notify the candidates individually. Candidates are therefore expected to check the relevant website from time to time to take notice of any variations.

Knowledge of English will be tested during the interview. Candidates may be required – if indicated on the Selection attachment - to have a minimum language level.

When sitting the examination, candidates must show proof of identity (ID card, passport or equivalent document issued by the government).

Failure to attend the interview on the scheduled date and time, or to show a valid ID document, shall result in the candidate’s exclusion.

The University of Trieste is not to be held responsible or liable for any technical failures that may impede the interview.

Interviews are public, i.e. access to the room, whether real or virtual, is ensured to whoever is interested in attending.

5.2 – In-person interview (optional videoconference)

Applicants unable to attend the interview in person – where the remote mode is not mandatory - may be interviewed remotely. To apply for the remote interview, they need to complete and upload, along with their online application, the “Videoconference form”, duly signed, which is available in the section “Forms”.

Candidates must be reachable on the day and time scheduled for the interview (see calendar on the relevant Assessments file). The Board of Examiners may agree with the candidate the exact time for the interview. Candidates having applied for videoconferencing can nevertheless attend the interview in person at the scheduled time, provided they bring a valid ID document.

Should a candidate – who had not requested a videoconference interview at the time of their application - be unable to attend the interview in person, they can send the videoconference form to the email address and within the date indicated in the relevant attachment, by giving reasons for their late request. The Board of Examiners will inform the candidates whether their request is accepted. If no reply is received, the request shall be deemed rejected and the candidate will need to attend the interview in person. Failure to do so shall result in the candidate’s exclusion.

Any requests sent to email addresses other than those indicated in the Selection attachments will not be considered.

5.3 – Remote interview (mandatory videoconference)

If the videoconference is the only mode identified by the PhD Programme for conducting the interview, candidates must access the platform as indicated on the “Selection” attachment and/or on the “Assessments” file.

5.4 - Boards of Examiners and shortlists

Boards of Examiners are appointed by the Rector, considering, where possible, gender equality, to carry out a comparative evaluation of the candidates.
The composition of the Boards will be posted on the “Board of Examiners” section of the relevant Doctoral Programme webpage.

The Boards can carry out their work remotely while ensuring the security and traceability of communication.

The Board may appoint experts for technical advice on specific topics.

On completion of the evaluation process, each Board will draw up a shortlist in decreasing score order. Places and scholarships on subject-specific projects requiring particular competencies may be offered based on the best assessment obtained on such places.

The Doctoral Board will assign the places and scholarships, based on the minutes of the Board of Examiners.

The candidates’ preferences about the type of PhD places as well as the project submitted upon application are not binding for the examiners nor for the Doctoral Board. Any potential preferences for places and scholarships may be stated during the interview.

Successful candidates will be offered the places by rank order.

Should two or more candidates obtain the same score on a non-funded place, the younger candidate shall prevail.

The names of the candidates, the results of the assessments and the final shortlists will be posted in the “Assessments and shortlist” section of the relevant Doctoral Programme webpage.

Art. 6 — ENROLMENT APPLICATION

6.1 - Procedure

Successful candidates must submit the enrolment application and pay the first instalment of fees within 5 working days of the date of the publication of the shortlist, before 01:00 PM (CEST). When the deadline expires on a Sunday or a public holiday, it is automatically extended to the next working day.

Procedures and deadlines will be posted at the bottom of the relevant shortlist. Publication thereof shall be deemed to constitute official notification. Enrolment on each Doctoral Programme is possible within the limit of places available, where applicable (see art. 6.6).

Candidates failing to submit their enrolment applications by the deadline or submitting incomplete applications or not meeting the requirements shall be considered to have withdrawn and the vacant places shall be made available to the next eligible candidates on the list.

After applying for enrolment, PhD candidates shall consult with the Programme Coordinator for guidance.

Successful candidates who have obtained their degree after the deadline for application will have to send the required documentation or, if they have graduated from an Italian University, send a self-declaration in lieu of certificate to dottorati@amm.units.it within 10 days of their graduation.
Successful candidates who are awarded a place with scholarship or other funding, such as a research grant, need to meet all requirements of the specific place and are not allowed to enroll in the PhD programme by renouncing the scholarship.

Candidates maintain their “pre-enrolled” student status until achievement of their qualification and until completion of the document verification process. Once the process is completed, the PhD candidate is enrolled and will be given their student number and credentials to access the University online services (Moodle, e-mail account, etc.).

### 6.2 – Candidates holding a foreign degree

To complete their enrolment, successful candidates holding a foreign qualification must submit the supporting documentation which was uploaded at the time of application for admission, bearing the legalization or Apostille stamp.

They shall also submit an official translation of their certificates in English or Italian (if they are delivered in a different language), i.e. legalized by the local Italian Embassy or Consulate, or sworn before a Court in Italy.

### 6.3 – Candidates residing outside Italy

Upon arrival in Italy, successful candidates from abroad must provide a copy of their Italian tax code and an address in Italy. Recipients of doctoral scholarships also need to have a bank account in Italy (or elsewhere in the SEPA zone), and must enter the relevant bank details on the student management system (ESSE3).

### 6.4 – Candidates from non-EU countries

Successful candidates from non-EU countries will have to register on the Universitaly platform and apply for an entry visa at the Italian Embassy or Consulate in their country of residence.

Upon enrolment, they need to submit their permit of stay in Italy (allowing study at university) or – if still to be delivered – the receipt of their application for the permit.

Non-EU candidates who are awarded a research grant shall submit a permit of stay for the purpose of "scientific research".

### 6.5 – Reserved places

Some Doctoral programmes offer places which are reserved for certain groups of candidates: graduates from foreign universities, with or without scholarship (code RB and RF, respectively), candidates who are granted a scholarship by a foreign country (code RC), candidates joining programmes of international mobility (code RD), or highly-qualified staff from companies, research centres or other organisations (code RE).

Candidates on reserved places who are granted a PhD scholarship from abroad or a fellowship funded by international mobility programmes (eg MSCA) need to submit proof of the scholarship award. In case of suspension or loss of the scholarship, the University has no obligation to finance the remainder of the scholarship.

Selection procedures and timelines for reserved places might be different, and a separate shortlist shall be made.

Enrolment is allowed after approval from the Doctoral Board, provided that the candidate meets the qualifications as required by article 2.

### 6.6 – Vacant places
Eligible candidates who have not been selected for a place and wish to be considered for a vacant place must file an application by the deadline established for enrolment of successful candidates. Applications submitted outside the said deadlines cannot be considered.

Vacant places will be assigned to other eligible candidates by rank order as follows:

a) after the enrolment deadline, any places that may remain available as well as the list of candidates that qualify for such places will be posted on the relevant shortlist in the section “Assessments and Shortlist” on the webpage of each Programme, which can be found at this link: https://portale.units.it/en/research/phd/programmes. Any scholarship will be awarded according to the ranking list and in accordance with Article 7 (see below).

b) candidates entitled to vacant places will be notified by email and shall apply for enrolment within the deadline and according to the terms that can be found at the bottom of the shortlist, failing which they shall be excluded.

The Doctoral office will assign the vacant places within the limit of their number.

In order to speed up the process - in the event that there are still places to be covered close to the start date of the Doctoral Programme – candidates may be required to confirm or decline their interest in the vacant place.

The University is not to be held responsible for any failed delivery of the notification.

Please note the following:
- to avoid delays in the Programme schedule, time limits for enrolling on vacant places might be shorter than those required under art. 6.1;
- any scholarship that shall remain vacant is also made available to candidates who have already enrolled on a non-funded place;
- if the Board of Examiners - in addition to the final score - has assessed the candidates competencies based on an evaluation scale in relation to a subject-specific place/project, the best evaluation shall be considered for assigning such place. In the event of equal evaluation, the highest final score following rank order will prevail;
- successful candidates on a non-funded place can decline the offer of such a place (irrevocably) and apply for a vacant funded place, provided they are eligible for the funded place;
- the Doctoral Board may decide to assign the vacant places also following withdrawal of enrolled candidates, provided that the timely start of the PhD research and training is ensured.

Art. 7 – SCHOLARSHIPS

7.1 – General provisions

Scholarships are available for all applicants, save if otherwise stated in the “Selection” attachments of the Doctoral Programme (reserved places). Upon acceptance of the scholarship, candidates must meet the relevant requirements in accordance with DM 226/2021 and the University Regulations on Research Doctorates. Recipients of PNRR or ESF+ scholarships must also meet the conditions required under the relevant funding programme.

PhD students may waive or suspend their scholarship at any time, if they benefit from an alternative funding, while keeping their place in the PhD Programme, if approved by the Doctoral Board.

Scholarships are granted annually and are renewed every year for the entire duration of the Programme (36 months), as long as the PhD student has successfully completed the planned activities, as assessed by the Doctoral Board.
For exceptional reasons and for scientific needs, the PhD Board may grant an extension of the duration of the Programme and of the scholarship for a period not exceeding 12 months.

The PhD scholarship is paid in monthly instalments for a total annual amount of €16,243.00, gross of national insurance contributions to be borne by the student. The scholarship may be increased by a maximum of 50% for conducting research abroad for a limited length of time, i.e. not exceeding the number of months, as indicated in the relevant “Selection” attachment. In any event, the scholarship increase can be granted only for uninterrupted stays abroad of at least sixty days.

Any PhD student, whether employed or self-employed, can be awarded the scholarship as long as their income from work is not higher than €15,000 before tax and after social security contributions (for the academic year 2023/24 the applicable tax year is 2024). The doctoral scholarship, as well as any remuneration from tutoring activity according to art. 25, par. 2 and 3 of the Doctoral Regulations do not count towards the income amount. If the PhD student’s income exceeds the mentioned limit, the scholarship will be suspended and withdrawn, and the student will have to pay back the relevant scholarship instalments.

If exceeding the income limit, recipients of PNRR or FSE+ scholarships shall be excluded from the PhD Programme.

Candidates who have already been awarded a doctoral scholarship once, even partially, are no longer eligible to receive another PhD scholarship.

Scholarships cannot be granted along with fellowships or other grants, except for scholarships awarded by Italian or foreign institutions for the purpose of supporting the PhD activity with stays abroad. With regard to NRRP and ESF+ scholarships, respect of the EU principle of additionality of Union funding is hereby ensured, whilst avoiding double funding from other Union programmes for the same expenditure.

For details on compatibility with work activity, see art. 25 of the above-mentioned Regulations.

Should any PhD student decide to no longer work on the assigned project with their research group and Supervisor, the Doctoral Board may revoke the scholarship and assign a new research project or else dismiss the PhD student.

For information on unemployment benefits following completion of the Doctoral Programme, scholarship recipients are advised to contact the local INPS office (i.e. the Italian authority for State pensions).

### 7.2 – Scholarship award

Scholarships are awarded by the Doctoral Board to successful candidates according to their rank order. Where applicable, the Board shall also consider the assessment of the candidate’s competence in the specific research subject required by the place, with a view to allotting as many scholarships as possible.

Should two or more candidates obtain the same score on a funded place (except for subject-specific places), the income value of the candidate’s family, known as Equivalent Economic Indicator (ISEE), shall be considered for the scholarship or grant allocation, and the lowest one shall prevail.

Successful candidates need to confirm acceptance of their scholarship using the appropriate form. Candidates who are granted PNRR or ESF+ scholarships will also need to sign a specific document whereby they agree to comply with all obligations and conditions under the relevant programme.

PNRR grantees include those financed by third parties with the PNRR fund.

Scholarships cannot be offered to candidates whose competence on the research subject has been assessed as unsatisfactory by the Board of Examiners.
Any scholarships that may be available after the publication of this Call for Applications, or after the selection process, can be assigned only providing that there are any successful candidates according to the criteria given above.

Scholarships will be paid monthly, normally on the 25th day of the month, as from the second month of actual attendance of the PhD activity.

7.3 – Scholarships funded by the European Social Fund Plus (ESF+)

7.3.1 – General information

The Region Friuli Venezia Giulia makes available resources of the European Social Fund Plus (ESF+), Operational Programme 2021/2027 - Year 2023 - Priority 2 Education and Training (see notice attached to the Decree no. 17895 of 19 April 2023), to enhance competence and promote flexible upskilling and reskilling opportunities for all taking into account digital skills, better anticipating change and new skills requirements based on labour market needs, facilitating career transitions and promoting professional mobility.

By this initiative, the Region will grant PhD scholarships with the purpose of developing and strengthening the connections with the regional production system and research institutions through co-operation actions with companies or research institutions in the region, or through technology transfer of processes, products, applications or research results.

These scholarships are offered pending approval by the Region FVG of the project proposal presented by the University of Trieste, and they shall be assigned after said approval.

Such scholarships are hereby offered, and their allocation is only possible after prior approval of the project draft submitted by the University of Trieste to the Region FVG.

7.3.2 – Requirements

Candidates applying for ESF+ scholarships must meet all the requirements as per art. 2 and must be resident or domiciled in the Region Friuli Venezia Giulia from the start of the Doctoral Programme/project and for the entire length of their PhD, failing which they will lose their eligibility.

7.3.3 – Responsibilities

In addition to the responsibilities as set out in art. 13.2, recipients of ESF+ scholarships must submit a final report on their research and relevant results, countersigned by their supervisor. The PhD students will submit their three-year report at the end of the mandatory 36 months of attendance (excluding any suspension periods). Further instructions and deadlines will be given at a later stage.

7.3.4 – Early project termination

Termination of the project before completion is only possible - with no obligation to return the scholarship instalments received – when one of the conditions as set out in art. 7.3.5 applies.

7.3.5 – Leaves of absence

The project and the scholarship can be suspended only in the event of:

a) mandatory maternity leave;

b) parental leave for up to six months, or nine in case of single parents;

c) serious illness;

Legge 241/1990 - Responsabile del procedimento: Tatiana Bertolotti

Università degli Studi di Trieste
Piazzale Europa, 1
I - 34127 Trieste

www.units.it – ateneo@pec.units.it

Tel. +39 040 558 3182/3092

Dottorati@amm.units.it
d) other serious issues beyond the control of the PhD student preventing regular performance of the doctoral activity. In this event, the suspension needs to be approved by the Doctoral Board and by the Officer in charge at the Region FVG.

In such circumstances, scholarship holders need to submit a substantiated application. The project shall be resumed at the end of the leave of absence.

The maximum amount of leave of absence that can be granted, by regulation, is no more than 12 months overall.

7.3.6 – Scholarship forfeiture

Scholarship holders shall return all ESF+ funded scholarship instalments received in the following situations:
- if they don’t comply with the obligations referred to in Article 7.3.3
- if they withdraw (Article 7.3.5 does not apply)
- if they have exceeded the income limit as per art. 7.1

The instalments shall be returned to the University by bank transfer in accordance with the instructions that will be provided by email upon the occurrence of the event.

7.3.7 – Allocation of scholarships

Scholarships are awarded by the Doctoral Board according to the criteria set out in art. 7.2, taking into account that the selected candidates must help develop and strengthen the connections with the regional production system or research institutions through co-operation actions with companies or research institutions in the region, or through technology transfer of processes, products, applications or research results.

Recipients of ESF+ scholarships may conduct their research abroad for up to 6 months during the three years of the Programme.

For this purpose, the scholarship amount may be increased as provided by art. 7.1.

Art. 8 – Doctoral Project

In accordance with art. 7 of the University Regulations on Doctorates, the doctoral student project consists as follows:

a) in developing - under the guidance of at least two supervisors - an individual research project in one of the research areas of the PhD Programme, as approved by the Doctoral Board;

b) in attending courses and other training activities, approved by the Doctoral Board, including complementary skill training provided by art. 4, par. 1 letter f) of DM 226/2021.

The doctoral project involves an exclusive and full-time commitment, approximately 1720 hours per year, except for the provisions of art. 28 of the Regulations.

Art. 9 – Research Grant

Research grants may be offered if advertised in the “Selection” attachments and are awarded to successful applicants by way of term contracts regulating the research activity.

The winner of the selection will not be allowed to start the doctoral activity before the above contract is signed.
Research grants are regulated by art. 22 of the Law no. 240 of 30 December 2010 and by the relevant University Regulations.

Non-EU grant holders living outside Italy will sign a “Hosting Agreement” with the University to obtain an entry visa for “scientific research”. Grant holders shall sign the contract only after completion of the process for obtaining their permit of stay.

Art. 10 – EXCLUSION FROM THE MERIT LIST

All candidates are admitted to this competition, subject to verification that all requirements have been met (art. 43 of D.P.R. 28th December 2000, no. 445). Therefore, the University may exclude a candidate from the competition at any time. The University shall also verify the truthfulness of the candidate’s statements as well as the authenticity of the documents submitted. Any false statements or documents shall be punished as violation of the Criminal Code and of the laws regulating the matter.

Any non-compliance with the provisions as given in this Call for Applications as well as with the rules in force on Doctoral Programmes will lead to the candidate’s exclusion from this competition.

Art. 11 – FEES

Enrolled students pay tuition fees - where applicable - and the regional fee as set out in the “Fees Policy”, published on https://portale.units.it/en/study/university-fees.

In the event that the PhD students waive their scholarship in the course of the academic year, they will be exempt from paying the fees as from the following year; should they waive it upon enrolment in their second or third year, they will be exempt from the payment as from that year.

Art. 12 – RIGHTS, RESPONSIBILITIES AND COMPATIBILITY

Doctoral students are committed to ensuring performance of their PhD activity on an exclusive full-time basis.

Students wishing to perform any working activity outside their PhD project will have to be authorized by the Doctoral Board which will evaluate consistency with the PhD activity.

All students are covered by mandatory national insurance against accidents at work, issued by I.N.A.I.L. (Italian Insurance Against Injuries and Accidents at Work) in compliance with art. 4 of decree D.P.R. no. 1124 of 30 June 1965. They are also provided with third-party liability insurance, which the University has contracted with a major insurance company. Please note that insurances only cover accidents that occur whilst carrying out the PhD activity.

Doctoral students from the Medical area can take part, on request, in clinical activities, provided they are licensed medical practitioners and are covered against professional risks.

Before the start of their activity, any PhD student shall inform the University Prevention and Protection Service of the type of activity they will perform by filling out the dedicated form. For further information: click here.

To civil servants attending the Doctoral Programmes apply the provisions pursuant to art. 12 par. 5 of DM 226/2021.

Students cannot be simultaneously enrolled on two Doctoral Programmes (with the exception of joint supervisions of theses), but they may be enrolled on a Doctoral Programme and a different degree programme within the limits set out by D.M. no. 930 of 29 July 2022 and D.M. no. 933 of 2 August 2022.
Joint attendance of a Doctoral Programme and a postgraduate Medical Training Programme (residency) is allowed, provided that the doctoral scholarship and the residency salary are not received concurrently, in compliance with art. 7 of D.M. 226/2021 and art. 28 of the University Regulations on Doctorates.

Any doctoral candidates - with the exception of students whose scholarships are funded by a foreign country or by international mobility programmes - are entitled to at least 10% of a PhD scholarship (as set out by the Ministry of University and Research) for their research expenses.

Further information on rights, duties, and compatibility of PhD attendance with other activities, are available on the University Regulations on Research Doctorates.

**Art. 13 – DOCTORAL THESIS**

At the end of the doctoral training, students shall take an examination in which they need to demonstrate to have achieved results of scientific relevance by submitting a written thesis or a graphic project.

Doctoral theses are made public in Open Access, in compliance with the provisions of the Institutional Open Access Policy available on [http://hdl.handle.net/10077/8791](http://hdl.handle.net/10077/8791).

For PNRR-funded projects, in particular, valorization of research results and intellectual property protection are ensured, while making research results and data accessible as early as possible and with the least possible restrictions, according to the “Open Science” and “FAIR Data” principles.

Terms and conditions for admission to the final examination and for thesis submission are announced every year.

**Art. 14 – DATA PROCESSING - ACCESS TO DOCUMENTS - OFFICER IN CHARGE OF THE ADMINISTRATIVE PROCEDURE**

All personal data collected for the purpose of this competition shall be processed and stored, including by automated means, in compliance with art. 13 of the General Data Protection Regulation (EU) 2016/679.

The provision of personal data is compulsory, as they are required in order to manage the recruitment process. Failure to provide them will result in the applicant exclusion from this competition.

The Data Controller is the University of Trieste having its legal address in Piazzale Europa, 1 – 34127 Trieste.

The data used for the mentioned purposes will be disclosed to or accessed by staff and their co-workers, as instructed by the Controller.

The University may also disclose the controlled personal data to other public administrations, should this be required for the execution of their public functions, as well as to other public bodies, where disclosure is mandatory pursuant to EU provisions or laws and other legal acts.

The collected data are filed and managed by means of University’s servers and/or - should this be required for the administrative management - external servers of service providers, who – for the sole purpose of the required service – may access personal data if duly designated as Processors pursuant to art. 28 of the GDPR Regulation.

Participation in the competition implies tacit consent to the online publication of the applicants’ names and results.
By virtue of artt. 15-21 of the said Regulation, applicants have a number of rights, namely the right to access their personal data, to request to have them rectified, completed or erased or to have the processing of their data restricted, by sending their request via email to the Controller or the Data Protection Officer: ateneo@pec.units.it or dpo@units.it.

Where applicable, candidates have the right of access to the documentation related to this competition, under existing law (L. 241/90 and D.P.R. 184/2006).

The Officer in charge of the administrative procedure is the Head of the Doctoral Office of the University of Trieste (Ufficio Dottorati di Ricerca), pursuant to Law 241/1990. As regards assessment of the candidates, the Chair of each Board of Examiners is in charge of the relevant procedure.

Any scientific publications submitted by the candidates at the time of application shall be used only for the assessment of candidates and the formation of merit lists. Foreign qualifications may be submitted to third parties for the purpose of assessment or verification.
