

A collaboration between...

# A problem of crowding: space debris

4 speeches of half an hour each to discover and explore the topic of space debris

## Speakers

Francesco Sulli

Giuseppe Basile

Claire Tonsa

Prof.  
Stefano Seriani

Prof.  
Anna Gregorio

Tuesday 12<sup>th</sup> November  
from 17:00 to 19:00

Room – A Building F  
Department of Physics

## Programme

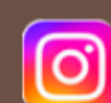

- **17:00-17:30** introduction to space debris and presentation of the ASTREO association
- **17:30-18:00** space debris and orbiting telescopes
- **18:00-18:30** how a CubeSat is made
- **18:30-19:00** CubeSat applications for astrophysics

## Useful info

- The conference is open to all and free to attend.
- The meeting will be recorded.
- It will be possible to follow the event remotely via the link available on the associations' social media profiles
