Prof. Paola Magni

Murdoch University, Perth, Australia

Forensic entomology in terrestrial and aquatic environments

A forensic scientist specialising in the ecology of decomposition in terrestrial and aquatic environments. Her research has advanced the fields of forensic entomology and aquatic forensics through collaborations with academic institutions and law enforcement agencies worldwide. With over a decade of experience teaching forensic science, she has developed innovative and nationally recognised educational approaches. Her expertise is frequently sought by national and international authorities, and her professional achievements have been recognised with several awards, including a prestigious knighthood from her home country.
